Customer Shopping Behavior Analysis

Uncovering insights from 3,900 purchases to drive strategic business decisions

Made with GAMMA

Dataset Overview

3,900

Transactions

Purchase records analyzed

18

Features

Data points per transaction

37

Missing Values

Imputed in review ratings

Made with GAMMA

Data Preparation Process

01

Data Loading

Imported dataset using pandas

02

Initial Exploration

Checked structure and summary statistics

03

Missing Data Handling

Imputed using median ratings by category

04

Standardization

Renamed columns to snake case

05

Feature Engineering

Created age groups and purchase frequency

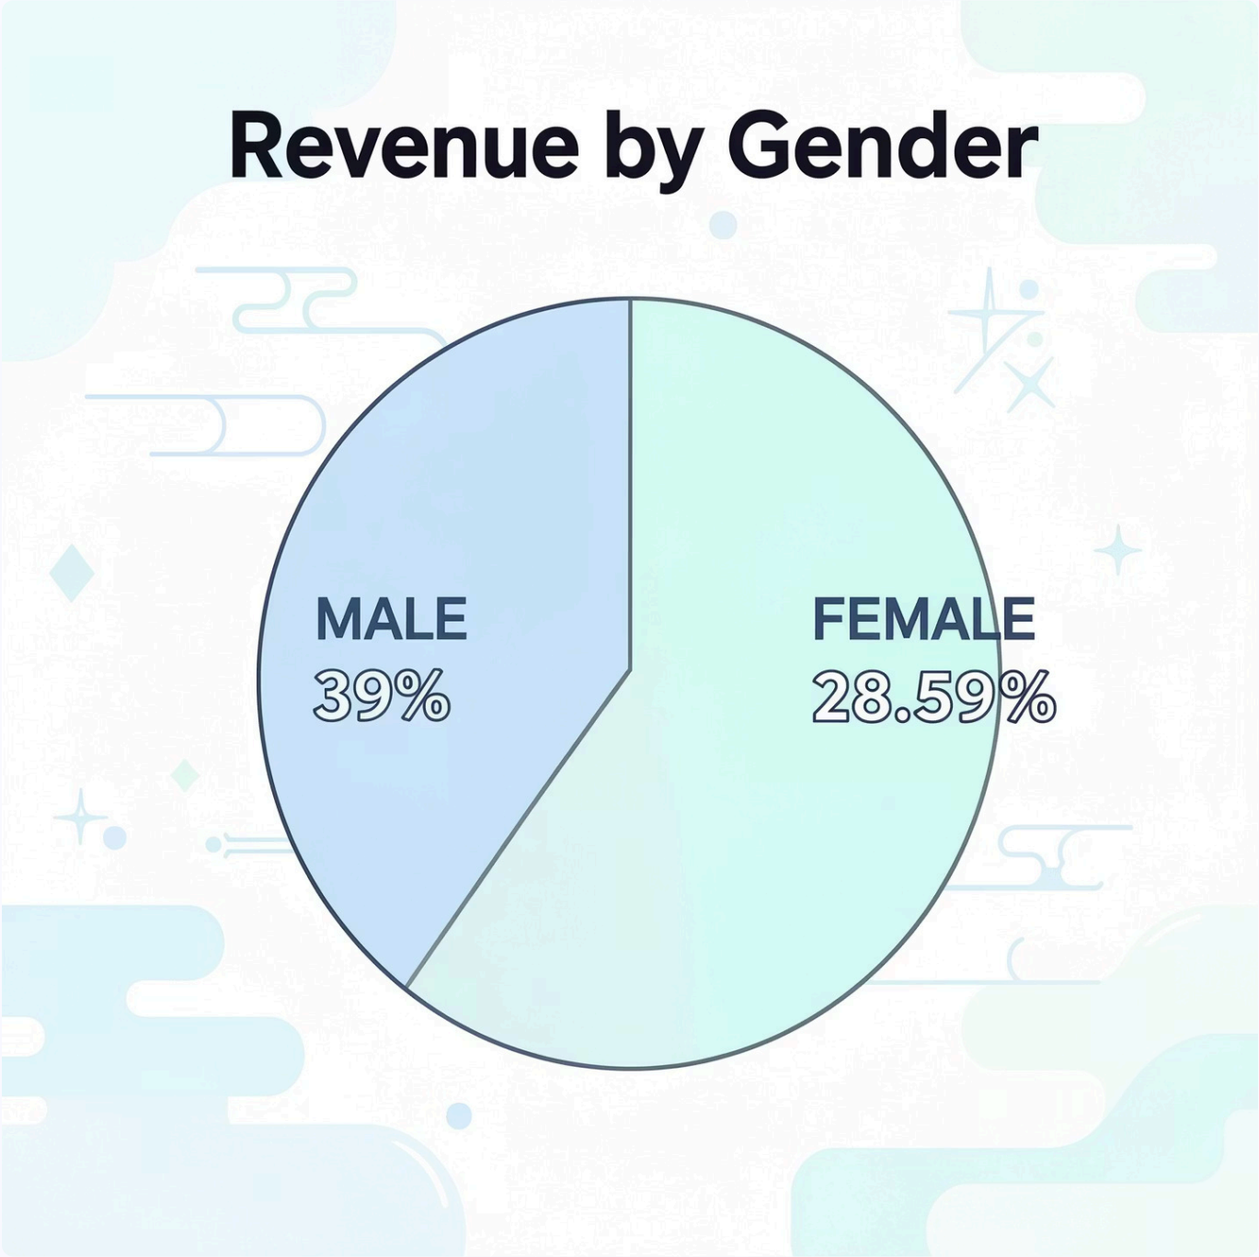
06

Database Integration

Loaded into PostgreSQL for analysis

Made with GAMMA

Revenue by Gender



Key Finding

Revenue comparison between male and female customer segments

Made with GAMMA

High-Spending Discount Users

Target Segment

Customers using discounts but spending above average

Strategy

Leverage discount sensitivity for higher-value purchases

Made with GAMMA

Top Products by Rating

Analysis Focus

Products with highest average review ratings

Made with GAMMA

Shipping Type Comparison

Standard

Average purchase amount

Express

Higher average spend
